

IOSH Safety for Executives and Directors

IOSH Safety for Executives and Directors helps business leaders to understand and fulfill their health and safety responsibilities.

£149 + VAT for Full & Individual Members*

COURSE DURATION

Approx. 6 Hours.

*The cost to Associate and none members is £249 + VAT.

Ensuring the safety and wellbeing of employees is a moral imperative and a legal and financial necessity.

Participants will gain a comprehensive understanding of their personal and corporate liabilities and know how to incorporate health and safety into decision-making and strategic planning.

They will understand how to build a strong health and safety culture to secure the long-term success and reputation of the business.

Course Overview

The moral, legal and financial case	Exploring the moral imperatives guiding health and safety practices and legal responsibilities of executives and directors.
Plan	How to develop a strategic health and safety plan aligned with the organisation's goals and objectives. This includes identifying workplace hazards, assessing risks, establishing clear policies and procedures, implementing effective communication channels, and setting measurable objectives for health and safety improvement.
Do	Focusing on the implementation phase.
Check	How to establish systems for monitoring and measuring health and safety performance. This includes conducting regular inspections and audits, reviewing incident data, evaluating the effectiveness of control measures, and ensuring legal compliance.
Act	How to encourage employee involvement, review and update policies based on lessons learned, implement corrective actions, and promote a positive safety culture throughout the organisation.
Final Review	Participants will assess their confidence levels, identify areas for further development, establish plans for ongoing professional development, and review key insights gained from the course.
