

# ACID MEMBERSHIP BENEFITS

## LEGAL ADVICE

- **One hour's legal advice** with your chosen ACID Legal Affiliate per separate issue or subject, depending on complexity, and reduced legal fees for any work they undertake for you.

## SNAPDRAGON MONITORING

- **Brand protection and enforcement** is at the heart of ACID's deterrence strategy against IP theft. Our partnership with SnapDragon Monitoring means ACID members can benefit from cutting-edge AI, which proactively hunts down online threats & infringements, at a 15% discount. Plus, you'll get a free brand check!

## IP DATABANK

- **The ACID IP Databank is entirely free** for ACID Members to upload important documents, drawings and images of your 2D or 3D designs to obtain a Police Intellectual Property Crime Unit (PIPCU) endorsed certificate of the date of upload; essential for those all-important audit trails. Each file size has a 10MB limit so you can even upload videos!

## LEGAL AGREEMENTS

- **From Confidentiality agreements to Licence agreements**, we offer a range of downloadable and reusable templates. Purchase once and use time and time again, plus ACID members get 60% off RRP!

## ACID LOGO

- **Licence** to use the Member of ACID Logo and Intellectual Property statement on your marketing materials, product packaging and website – a 24 hour burglar alarm against copyists and a great deterrent as part of your Intellectual Property policy.

## MEMBER HUB

- **All you need is here**; billing information, downloads, contact information and much more. Your own personal, go-to ACID area.

## BUSINESS PROMOTION

- **Get involved** with our online member focus features and benefit from exposure on our social media platforms to promote your business throughout the ACID Community.

## REGULAR NEWS UPDATES

- **Receive the latest news and views** via email and quarterly ACID Magazine, as well as the ACID website Newsdesk and social media channels.

## CAMPAIGNING

- **ACID is the leading UK voice on Design and IP** on the key issues which affect our members and the broader design community. We oppose any move by Government to erode existing copyright law to allow AI training without attribution, transparency or recompense. We fight for fair protection and enforcement, especially for lone, micro and SME creators to counter David & Goliath copying, including the rise in online marketplace infringements.
